

Dear Brothers and Sisters in Christ,

Face masks are now optional at Trinity Baptist Church. Whether you decide to wear a mask in the church building or not, please show love and respect for those who make a different decision.

Our sanctuary and fellowship hall are sanitized before each service and we have also established two hand sanitizing stations: one at the entrance of the church and another inside of the sanctuary.

We ask that you **please stay home if you are experiencing any cold or COVID19 symptoms – regardless of COVID vaccination or test status.**

Please note that as local and federal protocols are updated our church will adjust ours accordingly.

On behalf of Trinity, thank you for your cooperation, patience and for your faithfulness in praying us through a challenging period in the life of our church. Let us all continue to glorify God as we enter into this new season!

In His Service,  
The Deacons Ministry of Trinity Baptist Church
